HERE IS YOUR REMEDY

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS AFTER 13 YEARS SUFFERING.

Extract of a Letter from Mr William Galpin, of 70, St Mary street Weymouth, dated May 6th, 1851.

To Professor Holloway.

SIR—At the age of 13 my wife (who is now 61) caught a violent cold which settled in her legs and ever since that time they have been more or less sore and greatly inflamed. Her legs were dressing and for months together she hardly rested on a bed of rest and tried every remedy had recommended, but without effect, her health suffered severely and the state of her legs was terrible. I had often read your advertisements and advised her to try your Pills and Ointment as a last resource, after every other remedy had proved useless she consented to do so. She commenced six weeks ago and strange to relate is now in good health. Her legs are painless without seam or scar and her sleep undisturbed. Could you have witnessed the sufferings of my wife during the last 13 years and attract them with her present enjoyment of health you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG OF THIRTY YEARS STANDING.

Copy of a Letter from Mr Wm Abbe Builder of Gosfield Hall near Hinckford, dated May 31 1851.

To Professor Holloway.

SIR—I suffered for a period of thirty years from a bad leg the result of twelve three different accidents. Works accompanied by scorbutic symptoms. I had recourse to a variety of medical advice with it derriving any benefit and was even told that the leg must be amputated yet in opposition to that opinion your Pills and Ointment have effected a complete cure in so short a time that few who had not witnessed it would credit the fact. (Signed) WILLIAM ABBS

The truth of this statement can be verified by Mr W. F. England Chemist 13, Market street Hinckfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a letter from Mr Fenwick Turner of Penshaw Kent dated Decembr 13th 1850.

To Professor Holloway.

DEAR SIR—My wife has suffered from bad breasts for more than six months. Had during the whole period had the best medical attendance but all to no use. Having before heard an awful account of your invaluable medicine I therefore gave them a trial in her case and before it was finished so far less than a month a perfect cure was effected and the benefit that my other branch of my family have derived from its use is really astonishing. I now strongly recommend it to all my friends. (Signed) FREDERICK TURNER

The Pills should be used conjointly with the Ointment in most of the following cases

THE virtues of which are so well known that they require no encomium—being two of the most common articles in use. They are here combined by an elaborate and intricate process, from the only recipe in existence, and certainly it is a most delicate preparation, and for months together, the hair has been dressed entirely of it and less heavy remedy has proved useless. Was tried, but without effect, her health suffered severely, and the state of her legs was terrible. I had often read your advertisements and advised her to try our Pills and Ointment as a last resource, after every other remedy had proved useless she consented to do so. PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON

No. 22 State Street, . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office *where the Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats Specifications Assignments and all the necessary Papers and Drawings for Patents—and to render advice on legal and scientific matters relating to the same. Patents secured in France and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington, delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally explaining their inventions and consulting in respect to them, matters in general of paramount importance in order to obtain correct specifications and claims*. The experience of sixteen year's practice, an extensive collection of rare works relations &c on mechanical subjects, the Patent laws and patents of different countries, collected at much expense during the long time this office has been established, together with records here kept of inventions patented at Washington enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

R. H. EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R. H. EDDY Esq. of Boston did business at the Patent Office as Solicitor for procuring Patents. I there were few if any persons acting in that capacity who had as much business before the Patent Office and there were none who conducted it with more skill fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents. Sept 8, 1852. 1y

JAMES FREDERICK FOSTER, MANUFACTURER OF

Ratchet and Spiral Trusses,

467 Washington Street, 467,

BOSTON.

ALL the various approved trusses constantly on hand. Ladies wanted on by Mrs CAROLINE D. FOSTER who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, being 446 opposite to the subscriber's residence 467 where he will keep a full supply of Ready Made Trusses for Gentlemen and Ladies Youths and Infants. Also on hand Suspenders of five or six different kinds, and such as Hull's, Chapin's Spiral Cutters, Leigh's, Inglis's &c. &c.

☞ Ladies waited upon by Mrs Caroline D. Foster at the above place.

The following certificate from Dr John C. Warren of Boston was given 16 years since but will last forever.

Boston January 7 1835

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman to accommodate Trusses to the peculiarities of their cases I have much pleasure in bearing testimony of the competency of Mr J. F. Foster to supply the deficiency occasioned by the death of Mr Heath. After a more than half observation of his careful management satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren and to the public as a person well fitted to supply their wants in regard to the second mentioned article.

JOHN C. WARREN M.D. Boston

CERTIFICATE. The following is a certificate from Professor Stuart of Andover Theological Seminary.

The undersigned having occasion to employ Mr J. Frederick Foster of Boston in making and fitting Trusses for the relief of Hernia takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture and adapting them to the body giving ease and comfort to the wearer surpasses (as far as our experience goes) any other manufacturer of the article.

The numerous testimonials which he has received together with the recommendations of that eminent surgeon Dr J. C. Warren as a sufficient guaranty for all who may favor Mr F. that his assurance will give entire satisfaction and he will satisfy all reasonable demands for an equitable compensation. M. STUART

ALTHOUGH these works are distinguished by the political shades above indicated yet but a small portion of their contents is devoted to political subjects. It is the literary character which gives them their chief value and in that they stand confessedly far above all other journals of their class. *Blackwood* still under the fatherly care of Christ. Wilson North maintains its ancient celebrity and is at this time unusually attractive from the eternal works of Bulwer and other literary notables written for that magazine and first appearing in its columns both in Great Britain and in the United States. Such works as The Coxtons and My Novel (both by Bulwer) The Three Hand Katie Stewart and other serials of which numerous rival editions are issued by the leading publishers in this country have to be reprinted by those publishers from the pages of Blackwood after it has been issued by Messrs. Scott & Co. so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

No Work the Hardest Work

Here's to the man who at the anvil toils
And strikes the sounding blow
Where from the burning iron's breast,
The sparks fly to and fro
While answering to the hammer's ring,
And fire's intenser glow—
Oh! while you feel this hard to toil
And sweat the long day through,
Remember it is harder still
To have no work to do.

Here's to the man who toils the stubborn soil
Whose hard hands guide the plough,
Who bends beneath the summer sun
With burning cheek and brow—
Ye deem the curse attends his toil on earth,
From life's morn till even—
But ask the farmer if he toils
And ask if long hours through,
Remember this hard still
To have no work to do.

Here's to the man who ploughs the sea's boiling flood,
Who rides the restless wave
Boldly through storm and through the keel
Is rocking in the grave
Around whose dark form the stormy winds
Like fiends of fury rave—
Oh! while you feel this hard to toil
And labor long hours through,
Remember it is harder still
To have no work to do.

Here's to the man who wields the lofty power
Who wields a lofty power
Do with your might do with your strength
This is a golden hour
The glorious privilege to do
Is man's noble dower,
Oh! to your farthing tried yourselves,
To your cost souls be true
A weary wretched life is theirs
Who have no work to do.

☞ The newspaper, at the present day is no course it does only for every thing transpiring all over the world or for interesting essays, or instructive and pleasant reading. It is consulted as a guide in regard to buying and selling—in regard to the wants of the community, or as a guide—as a guide for any other matter of information. The advantage is reciprocal. I have an article to sell—some one (perhaps many) are in want of that very article. They probably await the issue of that map of movements, incidents by flood and field the newspaper—and there find what weeks of personal, anxious inquiry might have otherwise failed to disclose, the article they want, the ship the goods are with me. A half dozen lines a trifling sum expended, have saved that purchaser the trouble and whose would have ensued and of disappointed hopes lost. Both parties are pleased and benefited—he medium of exchange passes from one to the other and new enterprises go on. It is so indispensable that it is asserted to be that a business community of the most intelligent would be almost thrown into chaos if it were broken up. Men consult their morning sheet—and more business is done through hints gathered from that than by all other hints put together. That sheet has become as indispensable as the ledger, and is now as implicitly studied and heeded, by the mercantile community.—Palmer

When Arnold was told of the death of his son he only said I knew he was mortal. So we all say when we hear of the death of friends, we knew they were mortal. But we are uncertain that my friend was but a man. Such considerations would soon prevent us from the troubles proceed from their being unexpected.

A lazy boy makes a lazy man just as sure as a crooked twig makes a crooked tree—Who ever knew a boy grow up in idleness that did not make a shiftless vagabond when he became a man.

A Pun on is the verbal Hymen marrying words and parts of words often like its prototype making unions with no unity. It connects the parts of a word on two lines as in the word doll-han—doll begin on the cookers line and finish on the dish line.

The Puget Sound Royal Engineers propose to open an East India route by way of the Lake Winnipeg and the great lakes with their steamers including Rainy Lake, Lake of the Woods, and Winnipeg, with the rivers which connect these lakes on the eastern slope of the Rocky Mountains—thence the route lies westwardly to Vancouver's Sound.—The distance by this route 1000 miles of in land navigation, to be extended 400 miles further by the construction of the Sault St. Marie canal and the same may be extended by easy artificial connections almost to the base of the Rocky Mountains, which are represented to be at that point but 1463 feet above the level of the sea

The advantages claimed are that it is three thousand miles nearer than any other mail route to Australia, the inland portion lies entirely within British territory, and instead of requiring six or eight days for transit, would only require forty to fifty.

A writer in one of the English Magazines makes an article on paper this speaks of the system of isolation and seclusion by which the Japanese have for centuries been shut up from the rest of the world—"The founders of their system had to exhibit against their cause the pressure of an enormity the most constant and powerful in the use of humanity. Let the plant of man in the three kingdoms, cover her face with a black, brown veil and appear to shun observation, and she would soon be followed by an inquisitive crowd. The flavor of *forbidden fruit* has smacked rarely on mortal lips from the days of Eve downward."

We are requested to give notice that the Sabbath School Convention connected with the Penobscot Baptist Association will be held at the Baptist Church on Broad street, at nine o'clock this forenoon, for the discussion of various matters connected with the maintenance and welfare of Sabbath Schools.

The Portland Advertiser in speaking of the historical value of newspapers mentions the fact that the Legislatures of several of the States have authorized County Clerks to preserve files of two or more newspapers published in the County. There is a similar law in this State, and the Advertiser suggests that there should be a penalty for a neglect of keeping files as required The true way, doubtless, and indeed the only secure way is, for the Clerks of the Counties to order the bound volumes of the papers they are required to preserve This is the course adopted in this county, and by this method handsome volumes with smooth pages are secured to the county for all coming time

Mrs A L Norcross the "Independent Clairvoyant Doctress," whose fame for insight into the human system is the theme of remark and the cause of much wondering, has arrived in this city and taken rooms at the Hatch House, on a professional visit We refer to her card, to be found in our columns.

We have received from George C Rand Esq., of Boston, an elegantly printed Sermon, delivered by Rev Nehemiah Adams of Boston, after the interment of Mr Webster The demand for this able discourse has been great and a second edition has been published Mr Rand is the printer and in this pamphlet he has conferred honor upon his profession

The Mercury yesterday, by the offensiveness of its ungentlemanly remark, probably hoped to draw us into a quarrel with its conduct It will do no such thing We remember rightly the anecdote of Doctor Beecher is suing a quarto volume against a skunk

The Havana *Diario* announces that a young Spanish engineer is preparing a work on Ericsson's hot air engine, under the direction and patronage of the captain of the port Don Mariano de Luna It adds that it will be the first work of the kind that has ever seen the light in Cuba

The Boston Journal states that the money market has been gradually tightening up and the demand seems to increase as financial negotiations are less readily accomplished. Within a day or two rates have advanced materially loans having been made in the street on good security as high as one and one and a quarter per cent per month There are doubtless much higher rates than usual paid and not a fair criterion of the market.

New York 28th

Dates from Australia to the 10th of December received at Galtao by the English ship Irene in thirty days from Sydney states that the yield of gold amounts to one million pounds sterling per month

Flour had gone down in Sydney to twelve dollars per two hundred pounds

Charleston 28th Steamer Isabel from Havana 22d, arrived Hamilton Jones, private Secretary, to Mr King bearer of despatches from our Consul at Havana says Mr King's health is much improved

The Eastern City was boarded on her departure for New Orleans and her letter bags broken open by a detachment of Cuban officials headed by the Chief Police An energetic protest was made to the authorities, and at the time of the departure of the Isabel no response had been received from the Spanish authorities

To the Editor of the Whig and Courier

The Mercury undertakes to defend the city government against what he calls the abuse of an anonymous writer in the Whig on the subject of the Main street Cemetery If he thinks their case a just one, he is right in coming to the rescue I thought differently, and claimed the right to rap their knuckles I called the attention of our citizens to the fact, that the bones of former citizens are, and have been for fifteen or twenty years past, kicking about our streets and hauled into gardens among the loam that once covered them,—and I also intimated that in case the ground in question should be dug up, the same disgraceful exposure may be repeated for some time to come—This is a subject in which all are, or should be interested But having called attention to the act I have no more to say If our people are in love with this kind of display, they have a perfect right to indulge in it For I one I do not and have secured all of the remains in which I am personally interested, against further disturbance until Mount Hope shares the fate of all our other Cemeteries

The hurried manner in which the City Council ordered the remains taken up shows conclusively, to my mind, that they feared there would be opposition from the citizens if the order was published before it was passed An attempt of the kind was made some two years ago, to the same effect, but a remonstrance from a large number of citizens, silenced it at once In this case it was introduced and passed at the same meeting, and so prompt was the action under the order that although I was one of the first on the ground after the notice of removal yet the spade was in vigorous operation. Why all this haste without giving the usual notice of a pending order? Somebody or some Corporation wants the land!—That is the motive! The action, we have already seen

The eloquent and poetic effusion of the Mercury on the beauties and solemnities of Mount Hope, are appropriate and touching But let him recollect that that spot is *private ground* over which the city government has no control. Therein lies its security against disturbance or violation Did he visit the public ground of Mount Hope? If so, he found a striking contrast! What has the City done to that, to call forth emotion, such as I have alluded to above? Not a tree or bush has ever been planted, to my knowledge, at the public expense and more than once, has that ground been trodden over by cattle, through the neglect of the city government to keep it fenced, until the proprietors of the private grounds were compelled to fence between them for self-protection Furthermore, it is well known by those interested, that every lot on the public ground suitable for burial purposes, has long since been taken up and occupied. If this is doubted let any one go out to the ground and select, if he can, a spot where he would deposit the remains of a friend, that is not now claimed and occupied by others. Already, this portion of Mount Hope, wears an aspect of dreariness and neglect. All who can afford the expense, choose to purchase a lot on the private ground, where the soil is more suitable, and this being the case, when in a few years interments have ceased to be made on the public grounds, what security have we, that it will not be sold to some Railroad corporation and the bones again dug up and scattered? Let the citizens understand the full merits of the case, and then if they sanction the doings of the Council, all very well, but for one I go for respecting the rights of the dead as well as the living.

Resolutions Passed at the Penobscot Co. Missionary Association, Feb. 23, 1853

Whereas, The Missionary work being a sublime and noble work on account of its object and heavenly origin, being responsive to the last command of the blessed Saviour, Therefore,

Resolved, 1. That the individual who has no interest in such a work has reason to fear that he or she has no interest in the Saviour himself

Resolved, 2 That to manifest attachment to this cause, is not only to give liberally for its support, but to pray earnestly for its success, for without the blessing of God, all human instrumentality put forth for the extension of the Redeemer's Kingdom on earth and the salvation of men, will be utterly in vain

Resolved, 3. That in view of the Providence of God in opening new and inviting fields, which heretofore, have been inaccessible to the introduction of the gospel, and in view of the success which has attended the efforts already made, we seem to hear the voice of Jehovah saying, go forward and possess the land

Resolved, 4 That *the fact*, that so large a number of Missionaries have recently embarked for Foreign Lands, under the auspices of the American Missionary Association, (12 or 14 persons) *seems to indicate* that God is willing to raise up faithful laborers for his vineyard, in connection with *this organization* as fast as his friends furnish the means for their support

Resolved, 5 That we heartily approve of the resolution adopted at the last annual meeting of the American Missionary Association in which the earnest desire is expressed, that in order to sustain present missions and establish new ones of pressing importance the sum of $50 000 be raised the present year, and that we believe it can be *done* and be the blessing of God, we will endeavor to show our faith by our works

Resolved, 6 That the gospel which Christ would have his followers promulgate, must be like that wisdom which is from above, "first *pure*, then peaceable, gentle, easy to be entreated, full of mercy and good fruits Therefore we cannot consistently give our patronage to any Missionary Board which apologises for *Slavery* by receiving *Slaveholders* into their mission churches, or in any other way give countenance to a *stupendous wrong*

Resolved, 7 That the injunction to "remember them that are in bonds as bound with them," is of perpetual obligation, therefore it is lamentable to witness the remissness of christians generally, in regard to this duty, even at appointed seasons of prayer for the prosperity of Zion and the conversion of the world were the church as importunate in prayer for the deliverance of *three millions* of our fellow countrymen in bonds, as was the church when the Apostle Peter for Paul and Silas were imprisoned then might we soon expect to see the iron doors of their prison house opened, and the oppressed go free

Resolved, 8 That in this progressive age, the religious press should be reformatory, or in advance of public sentiment, therefore we rejoice that the Christian Press, a newspaper published in Cincinnati, is of this character, and wish it the widest circulation

Resolved 9 That the act of Congress entitled the "Fugitive Slave Bill," is an act of consummate wickedness and in conflict with the "Higher Law" And while it continues to disgrace the statutes of the Nation, we will not cease to urge its unconditional repeal

CONGRESS.

WASHINGTON, Feb 22

IN THE SENATE

A communication was received from Mr Kennedy Superintendent of the Census asking for an investigation of his conduct Referred

Mr Hunter reported the civil and diplomatic appropriation bill amendments

The army bill was taken up

The question pending was on Messrs Davis and Shields amendments

Messrs Douglas, Rusk and James continued the debate in favor of the civil superintendence of armories, and Messrs Shields and Butler in favor of the military

The amendment was agreed to by yeas 29 nays 24 The bill was then passed

The civil and diplomatic appropriation bill was reported to the Senate

Mr Hunter then offered, from the Finance Committee a large number of amendments to which no objections were made Among them was one striking out a provision prohibiting the use of the patent office building for any other purpose This was debated and agreed to by yeas 24, nays 22

During the debate General Pierce appeared in the Senate lobby and was soon surrounded by Senators—He remained about ten minutes and then left with Mr Norris

The mission to China was raised to the full rate $20 000 were appropriated to defray the expenses of the Turkish steam frigate on her visit to New York during the world's fair, $70 000 were added to continue the Mexican boundary The bill was then postponed Adjourned

IN THE HOUSE

The letter of the Secretary of the Interior, in reply to Mr Gentry's charges, was read He explains the charges by saying that the lad who was appointed to the vacancy left by his father's death, was but fifteen years old at the time and wholly incompetent to the duties of the office notwithstanding which, at the solicitation of several individuals, who represented to him the destitute condition of the family, he appointed him to the vacancy, Mr Kane undertaking to instruct the boy in the duties of the office, and to assume a fatherly supervision over him, doing himself such portions of the labor as the boy was unable to do for a suitable compensation

Mr Stuart also notices several errors of fact in Mr Gentry's statement, and in conclusion challenges the most rigid scrutiny into his conduct

The House then went into committee on the Navy Appropriation bill The clause appropriating nearly $2,000 000 for the repair of vessels in ordinary, and for vessels in commission, including the purchase of hemp, being under consideration, Mr Stanton of Tennessee moved a proviso that the Secretary of the Navy department be directed to accept the proposition of the United States Mail Steamship Company to furnish one of their mail ships on the following terms

The said Company, at their own risk and expense, and under the direction of the Secretary of the Navy, to make all the alterations and improvements necessary to prepare the said ship for armament, and place such armament on board, and subject the said ship to such test as the Secretary may adopt, for naval purposes If the test prove satisfactory, the government shall take the ship at an appraised value

The Chairman ruled the amendment out of order

Mr Brooks offered an amendment providing for completing and equipping for service the frigates Sabine and Santa Fe. He said that the Princeton, old steamer, was torn down and built up at a great expense, and nothing was saved. The Vixen was treated in the same way, and rebuilt at an additional expense, nothing being left but an apology for the original vessel, to evade the law. The Sabine and Santa Fe have been on the stocks for many years and their completion recommended by the Secretary of the Navy and Chief of the Bureau of Construction. Unless a provision of this kind be especially made, they will go on rebuilding their Princetons and Vixens, just as they are now doing the Constellation at Norfolk. The amendment was rejected.

Mr Stanley then offered an amendment appropriating $135,000 for the equipment, maintenance and support of the expedition to explore the Gulfs of Africa, instead of Liberia, and for ascertaining the resources of that region for the colonization of the black from the United States, Declared to be out of order

Mr Stanton of Tennessee, offered one authorizing the sale of a portion of the lands of the Brooklyn Navy Yard between the western side of the Vandorbilt Avenue and the Hospital grounds, provided that it shall not be sold for less than it cost and the interest thereon Disagreed to Various amendments were acted upon, and but few agreed to

During the proceedings Gen Pierce having escaped from the crowd that surrounded him in the rotunda slipped into the House In a moment he was environed by the greedy lobby loungers and members of Congress Introductions ensued, and the crowd kept increasing In the midst of the excitement, the President elect retired by the shortest route

The Committee rose and reported the bill to the House

The amendments were concurred in and the bill was passed The House then adjourned

These men were chosen on the part of the Senate

IN THE HOUSE

A communication was received from the Secretary of State, transmitting an abstract of Railroad Company returns On motion of Mr Pierce of Bangor, it was ordered to be printed

Mr Thompson of Gardiner from the Committee on Public Buildings, reported a resolve in relation to fitting up a room in the Capitol for the deposit and exhibition of the most approved implements of agriculture which was read and Wednesday assigned

The House made choice of Wm S. Cochran as Major General of the 4th Division, and L D B Palmer, as Major General of the 8th Division

On motion of Mr Nye of Waterville a committee was ordered to be raised to report to the House resolutions expressive of its high regard for the valuable services and noble character of the late Lieut Charles Heywood of the United States Navy, of its deep pain on receiving the news of his death, and its sympathy with his family and friends in the loss of a devoted husband an affectionate father and a true hearted friend, with such further action as may be deemed proper and expedient. Messrs Nye of Waterville Smith of Calais Sewall of Oldtown, Titcomb of Kennebunk and Morse of Bath, were appointed the committee

GENTS —I have the honor to acknowledge the reception of your letter of the 28 h ult, covering resolves of the Legislature of Massachusetts, on the subject of the recent most affective dispensations of Providence in my family Next to confiding reliously in the wise and good will of God which is our duty under whatever vicissitudes of life, it has been the means of consolation to me, in this great calamity, to know and feel not only the response of public acts like that of the Legislature of Massachusetts but also of some private declarations of kindly interest, to which, in the present pressure of public engagements it has been impossible for me to reply individually

That sympathetic emotions have been awakened in the breasts of my fellow citizens by the irreparable domestic privations which has befallen me

THE FAVORITE REMEDY FOR
Coughs, Colds and Consumptions.

VEGETABLE PULMONARY BALSAM It is probably with no patent medicine having during a period of more than Twenty-five years fully maintained the high reputation which it has acquired for CONSUMPTIVE COMPLAINTS and all DISEASES of the LUNGS, THROAT and CHEST. It has been used with probably greater success than any other article known and Physicians who have opportunity of witnessing its highly salutary effects, recommend it as a safe and very efficacious medicinal if not superior to any other prescription for above complaints within their knowledge. The fame of this Medicine was a private recipe of a distinguished Physician in one of the neighboring States, and now presented by an individual in whom it gave the most astonishing relief. It is composed of vegetables, and if used according to directions, must be perfectly safe.

Messrs Allen & Co, Merchants, Cincinnati—gentlemen, who have used the Vegetable Pulmonary Balsam, uniformly speak of it as a valuable medicine. Of the quantities sold now in Cincinnati, we have not put up the quantity sold for similar complaints, we place it on the list.

Respectfully, &c, ALLEN & COX

The editor of the Seneca Falls Courier says—We have had occasion to witness the good effect of this Vegetable Pulmonary Balsam in our family in case of a lady who has been cut rely cured of Consumption by the use of it, and also in severe coughs and colds, we cheerfully bear testimony to its being a safe convenient and very efficacious medicine in cases of that description.—Ed Courier

A clergyman from Philadelphia writes, that he has been in the habit of using the Vegetable Pulmonary Balsam himself and family, for the last thirteen years, and is in the habit of recommending it to his friends and considers it an invaluable remedy for all pulmonary complaints.

For the last five years of my practice I have had the attention to witness the beneficial effects of Vegetable Pulmonary Balsam in many cases of obstinate cough and other affections of the lungs. I would therefore confidently recommend its use in all complaints of the chest, as being equal if not superior, to any other medicine within my knowledge.

Lempster, N H TRUMAN ABELL M. D.

BEWARE OF COUNTERFEITS and IMITATIONS such as Carter's Compound Pulmonary Balsam, Ameptran Pulmonary Balsam, and others. Important to purchasers of the genuine article by its whole name.

VEGETABLE PULMONARY BALSAM,

Self Acquired Fame!
DR. JOHNSON'S
AMERICAN ANODYNE LINIMENT.
For Internal and External Use.

THIS wonderful Medicine notwithstanding it has never had the advantage of one puff or paper publicity has yet required a high and more extended popularity than any other similar compound in the world. It is entirely of vegetable extract perfectly safe to be administered even to the most delicate child and alike astonishing and satisfactory in its effects upon man or beast. Let those unacquainted with this valuable medicine why any one of a trial and we promise you a speedy cure of Coughs Colds Asthma Bronchitis Whooping Cough Croup, Spitting of Blood and all Lung Complaints, Chronic Diarrhœa and Dysentery in all which it is used internally. The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains Chapped Hand Bruises Burns and all descriptions of wounds are magical. Persons troubled with Cramp in the Stomach Side or Bowels, Sore Throat Piles &c by a combined internal and external application. This Anodyne cannot fail of certain and speedy cure. The proprietor can produce hundreds of testimonials in favor but prefers to let it carry its own recommendations as it has done for forty years past. We ask no man to use it after he has satisfactory trial. Its composition is of the most penetrating and healing specifics known to the materia medica—The inventor of this article was in the constant and successful practice of medicine for more than twenty years

This is to certify that having been troubled for a number of years with a distressing cough, and bleeding at the lungs and not being benefited by medical advice I in 1848 was in a hopeless state of consumption. My legs swelled so that I was unable to stand or help myself. At that time your Liniment was providentially recommended to me and by its use I was entirely cured and have since enjoyed good health. I have been in the habit of using it every day I have been for the last twenty years to on first to severe attacks of bloody dysentery and never found any remedy to do half the good I do your Liniment since which I have had no return of the complaint. I can truly say I think your Anodyne Liniment was the means of saving my life JOHN T ATKINS

Brewer, Sept 29, 1852

Dr Johnson Dear Sir—In consequence of having a fever sore on my leg it became entirely stiff at the knee and it was declared by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment and by using three bottles my leg was limbered and strengthened and for a number of years I have been able to use it about as well as the other. I consider myself indebted to the use of your Liniment for much the blessing of Providence, for the use of my leg and would say to others who may need help in this way, try it, and no doubt you will be cured

THE ROAD TO HEALTH!
HOLLOWAY'S PILLS.
CURE OF A DISORDERED LIVER AND BAD DIGESTION

Copy of a Letter from Mr R W Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851

To Professor Holloway,

SIR—Your Pills and Ointment have stood the test of time and are the best of Proprietary Medicines for some years. A customer in whom I can refer for any enquiries desires me to let you know the relief he derived from your Pills. She had been troubled for years with a disordered liver and bad digestion. On the last occasion however the virulence of the attack was so alarming, and the inflammation set in so severely that she dare not trust her life to be unable to bear up under it, for formerly she was reduced to try your Pills and she informs me that after the first, and each succeeding dose she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases but this is one from the severity of the attack and the speedy cure I think, speaks much in favor of your astonishing Pills

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND

Copy of a Letter inscribed to Hobart Town Courier of the 1st March 1851, by Major Walch

Margaret O'Donnigan, nine years of age resided in New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs, during this period she was under the care of the most eminent medical men in Hobart Town and by them her case was pronounced incurable. A friend prevailed upon her to try Holloway's celebrated Pills which she consented to do and in an incredible short space of time they effected a perfect cure

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 14 YEARS OF AGE

From Messrs Thew & Son Proprietors of the Lynn Advertiser who can vouch for the following statement—August 20, 1851

To Professor Holloway

SIR—I do not to hear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach which was also accompanied by a shortness of breath that prevented me from walking a mile. I am 14 years of age and notwithstanding my advanced state of life these Pills have so restored me that I am desirous that others should be made acquainted with their virtues. I am now rendered by their means completely active and can take exercise without inconvenience or pain which I could not do before (Signed)

HENRY COE Northstreet Lynn, Norfolk
